**Give the Gift of Sherry K: The Best Gift
under \$20**

She wiped your little nose when you were a kid. She used her own spittle to wipe that little bit of smudge off your cheek. She kissed your little bruises and bandaged your little scrapes. She made endless sacrifices in order to give you the very best. Now isn't it time that you gave her a little something back? A CD makes a thoughtful and practical Mother's Day gift--one that keeps giving all year long. Order today and save at [my site](#), or contact me directly at sherry@sherryk.com.

Check Out The New Web Site!!

the
homepage), press release downloads,

Sherry K Goes Back To School!

A lot of you may have heard about my
latest adventures
performing in schools. My program is
entitled "Keep
Practicing: A Pianist's Journey". It
consists of old
jazz novelty pieces, television/movie
themes,
classical works, as well as original music
from my
latest CDs. With considerable emphasis
placed on
motivating young students, I keep the
setting light,
fast paced and fun, including a segment

describing my experiences as a piano student starting at the age of 3 years old. During a 2-week tour in Iowa, my mom tagged along with me, and we had a great time. We took advantage of all the great tourist attractions (Yes, there's more than just corn in Iowa.), including the Ice Cream Museum in LeMars and the Amana Colonies. For more on the Sherry K school experience, click on my school page.

Who's talking about Sherry K now?

Jenny Lush, of Midwestbands.com, has this to say about "[A Whole New Woman](#)":

It seems that lately I have been BLESSED to hear such incredible talent, here at MWB. Sherry K is no exception—in fact; her talent is so incredible I don't

know if I could just give her a '10' in musicianship.

First, saying she is an excellent pianist/keyboardist is an understatement. She plays it all!

Okay, maybe

this disc didn't have Heavy Metal, Punk or Alternative

Rock on it, but, it does have all of those genre's

ROOTS. Blues, Gospel and bit of jazz, and a

theatrical feel that most Punk has as well! Forget

the comparisons—just get the idea that if she WANTED

to play any of the aforementioned genres, I'm sure she could.
